## Why Should Invest in Lootel ?

### Business of Basic Needs

Our services Recharge, Refresh and Refuel services belong to basic needs. Especially while traveling user needs these services.

### 24X7 Operation

We have a minimum 18 hours to 24 Hours operation requirement. We do have customers' footfall at the outlet from the morning 06 pm to Midnights which help to us generate more revenue from the customer.

### Aligned with Govt Need

We are working on the basic needs where we are providing the quality restroom and EV charging infrastructure facilities which demand of the hour. Govts also promoting these services right now in EV and Swacha Bharat

### Proven Concept

We got many awards for our concept and this year we got National Startup Award. The government also supports our concept. Almost 8.5lac users use services of Lootel and in the last 5 years, we generate 4.2cr revenue from our 4 outlets.

### Unique Business Model

We have a unique combination of 3R – Recharge, Refresh and Refuel. These services have complaints about each other. Where you can recharge your Ev vehicles, get refreshed using the toilet and refuel your tummy with our delicious food.

### Customer from Pan India

Our services belong to basic needs and traveling. So we do have cross-city users from pan India.

### Higher Entry Barrier

We have a unique business model. Which has a unique combination of service and revenue generation system which creates a higher entry barrier for the competitors.

### Bigger Market

Our target user is traveler, tourist, and transit people which is available in pan India. In 2019 8.8 Million foreign tourists and 1613 Million domestic tourists traveled to India.

### Future of hospitality

We fill the gap between Demand and supply of the services. Because every traveler has their different needs while traveling and Lootel provides them a place where their basic needs can be fulfilled like a shower, toilet, locker room, specific area for a nap, and food.

### Tech-Based Operation

We provide a technology-based system where you get a Smart Entry System, Rating & Feedback System, and Monthly Membership System. We also provide a Management system where you can get Real Time Sensing alerts, Smoke/Fire alerts, and many more things. We also provide a centralized Control room service where you can get Real Time Key Operation alerts, User Data of All Units, and a Live CCTV View of All Units.

## What require for the setup ?
